

Dear FCC,

K-Love serves me as a resident of this community as my first choice for a radio station. It is a Christian station and serves those who choose to listen to positive and encouraging music and an uplifting message. The loss of K-Love in my community would be a great loss to those who worship God as well as those who are still not yet Christians because another source of encouragement and ministry would be gone. Such a service is in the public interest because it is a positive message for the community. Many of us are served by this message.

thank you,  
Mason Shih
